10 THINGS TO KNOW IN CASE OF AN ACCIDENT

1. Stay as calm as possible and check for injuries.
2. If the accident is minor and there are no serious injuries, move cars to a safe place, rather than risk being in moving traffic.
3. Make note of specific damages to all vehicles involved. If you have a camera handy, it may be helpful to photograph the accident scene.
4. Write down the information of all persons involved in the accident using MacGyver Autobody & Collision's Accident Report form provided.
5. If the name on the Insurance Policy is different from the name of the driver, establish the relationship and write it down. Collect witness information as well, if possible.
6. DO NOT admit fault even if you think it was yours (do not apologize, an apology can imply fault).
7. Never discuss accident details with anyone other than the police and it is wise to state only the facts.
8. Never accept a check for the repair of your car until you're sure it covers all the repairs. MacGyver Autobody & Collision can provide you with a free written estimate with full explanation of the repairs required.
9. Do not feel pressured to send your car to a body shop you are unfamiliar with. Have it towed to MacGyver Autobody & Collision or to a Collision Reporting Centre.
10. Once your car is at MacGyver Autobody & Collision we give you hassle-free service for all insurance and non-insurance needs.
